Corporate Profile

Mpact Plastic Containers forms part of Mpact Operations and is the leading supplier of plastic containers in the southern African market.

There are two manufacturing plants, one in Brits, North West, and the other in Atlantis, Western Cape. Both plants host the 5500t Engel Duo machine, which is the largest of its kind in the southern hemisphere. Mpact Plastic Containers offer a fresh modern approach to plastic packaging, moving away from outdated, single-trip disposable packaging and developing instead an array of multi-trip, re-usable containers that constitute the largest range of Returnable Transit Packaging (RTP) systems in South Africa.

Mpact Plastic Containers is the country's leader in the manufacturing of Jumbo Bins and wheeled bins, and creates a variety of other crates, trays and related packaging items to meet the needs of our clients.

Looking Ahead

Mission

Mpact aims to realise the full potential of its Plastic Containers division by growing market share in key product segments and seeking strategic inroads into Africa. We aim to conduct our business through mutually beneficial relationships with our customers, partners, contractors and suppliers. We aim to sustain these relationships by cementing our reputation as the preferred supplier of injection-moulded products and the overall packaging partner of choice.

Vision

At Mpact Plastic Containers, our vision is to be the leading packaging brand with the highest ethical standards.

This means we are committed to:

- Meeting and exceeding our customers' requirements for product quality, innovation and cost competitiveness.
- Providing a safe and secure working environment in which our people can fulfill their ambitions and aspire to continually improve their circumstances.
- Acting as a responsible corporate citizen in the communities where we operate, and managing natural resources with respect and understanding.
- Achieving sustainable, profitable growth through a focus on business excellence and strategic expansion in our chosen markets.
